Does Your Health Center Show Symptoms of INEFFECTIVE POLICY AND COMPLIANCE MANAGEMENT?

All CHCs at some time experience challenges in policy and compliance management. Could this be you?

- Manually searching for and managing documents
- Policies in different locations throughout the health center
- Archaic binder systems
- Multiple and varying versions of the same policies in use
- Confused staff applying policies inconsistently
- Inadequate in-house/Intranet solution
- Outdated or inaccurate documents due to insufficient resources or time constraints.
- Site review preparation made chaotic and stressful

PolicyPLUS™

These are symptoms of ineffective policy and compliance management. Keeping information current, accurate, and available to all employees is a major hurdle for health center managers. Managing reviews, approvals, and updates to health center documents becomes unmanageable as you constantly adapt to changes in the market and resource dynamics. You need to ensure that all key stake holders review, contribute, and approve as appropriate across multiple locations or organizational levels.

PolicyPLUS™ was built for healthcare compliance needs with sensitivity to costs and resources. Each feature responds to the experience of many healthcare organizations with the same policy, procedure, credentialing, and compliance management challenges you face. It's custom made for a healthcareorganizations, featuring ease of use, ease of implementation, legal compliance and accreditation benefits, and low cost.
